

FRIDAY JANUARY 1

Eastern advertising office 230-234 Temple Court Building New York City, E. Kratz agent.

## Happy New Year.

The APPEAL wishes its patrons a Happy New Year. There will be no paper issued from this office tomorrow, and if any printer is caught working about the place today, he will be discharged.

## A NEBRASKA SUGGESTION.

State Senator Beale of Nebraska suggests to Governor McIntyre of Colorado the idea of the Legislature of that State making an appropriation to construct a depository for silver bullion. The bullion could be deposited and certificates issued upon the same to the market value of the bullion, which certificates could be used as money by the people and in this way the demand for more money could be met.

Mr. Beale is satisfied that the demand such a scheme would create for bullion would cause an advance in the price and many of the benefits sought for by the free silver advocates would be reached and no law violated. If the plan meets with favor in the silver producing States, Mr. Beale proposes to introduce a bill in the Nebraska Legislature to carry it into effect.

As the certificates issued against bullion deposits would not pass as money unless they were made a legal tender for debts there is one almost insurmountable obstacle to the scheme and that is in Article I, Section 10, of the constitution, which reads:

No State shall enter into any treaty, alliance, or compact with any foreign power; nor shall it grant letters of marque and reprisal; nor shall it emit bills of credit; nor shall it make anything but gold and silver coin a tender in payment of debts; nor shall it pass any bill of attainder; nor shall it pass any bill of ex post facto law, or law impairing the obligations of contracts; nor shall it grant any title of nobility.

Of this scheme the Reno Journal says:

That constitutional inhibition of making anything but gold and silver coin a tender in payment of debts doubtless prevent States from utilizing the scheme proposed by Senator Beale of Nebraska. That something should be done to advance the price of silver bullion will not be questioned except by the ultra gold men. During the current year, according to the President's message, \$60,541,000 worth of silver bullion was exported from the United States. The average price per ounce of that silver was about 65 cents. Now if it is possible for the silver producing States and the other States that sympathize with them to increase the price of silver bullion to foreign markets, they certainly ought to do so. Congress will do nothing of the kind. With free coinage the foreign market, which purchased \$60,000,000 of silver bullion in the United States last year would have to pay \$120,000,000 for it, and they must buy it as pure silver circulated in the United States. If bullion and silver are to be sold at the United States price, it would do it if it were for gold bullion or foreign gold.

## CUBAN RECOGNITION

If the United States Government proposes to recognize Cuba, it should be done at once. At present the country is doing all it can covertly to aid the cause, instead of coming out in open, the only way of doing it above board.

The United States Government is too big a nation to have to play the sneak in national affairs. At present it allows its revenue cutters to let filibustering expeditions escape, bearing arms and ammunition to Cuba and every day men are being enlisted in nearly all the big cities of the Union to go to the island and fight for Cuban liberty. All this is a violation of neutrality laws, yet no action is taken. Would not the United States stand better in the eyes of the world, to throw down the gauntlet to Spain and tell her in plain English that Cuba must be free.

It is said that Mrs. Castle has now recovered from her kleptomania, having been entirely cured by a surgical operation. The nature of the operation is not stated in the dispatches, but it was probably the amputation of her fingers.

It is claimed that McKinley (president elect) owns silver mines in White Pine county. San Francisco capitalists are contemplating building a pipe line from Owens Lake to Randsburg. This will give the new camp plenty of water. The distance is about 60 miles.

## Desolution of Partnership.

Notice is hereby given that the firm, heretofore known as Catton & Robinson, has this day dissolved partnership by mutual consent. Mr. Catton will collect all money due and pay all bills. Mr. John Catton will continue the business as proprietor.

JOHN CATTON,  
RICHARD ROBINSON,
